River Stour Trust

River Stour Trust

Registered Charity No. 257806
Suffolk Essex River Stour Navigation
Conservation – Restoration – Education

The River Stour Trust (RST) is a registered charity, led by volunteers dedicated to preserving the right to navigate the River Stour (between Sudbury, Suffolk to Manningtree, Essex).

The Suffolk & Essex River Stour was one of the country's earliest statutory Navigations following an Act of Parliament in 1705 during the reign of Queen Anne.

RST was set up on 12th September 1968 and successfully fought a proposed closure of the navigation on this historic river. A public right of navigation remains today and is administered by the Environment Agency. RST is dedicated to protecting and enhancing the right of the public to navigate the River Stour. Many of the locks have disappeared but through navigation (a distance of approximately 25miles/37km) is achievable by smaller craft that can be portaged.

Sudbury to the Sea has been an important event on the RST calendar since the 1970s when a small group of paddlers would take to the water to ensure the Navigation remained in use. It was rebranded as Sudbury to the Sea (S2C) in 2005 with maximum attendance set at 300 craft.

We share our knowledge and enjoyment about the river's history, present and future through various activities including boat trips, events and educational activities.

We could not exist without our members and supporters. This river has a long history, and you are contributing towards preserving the Stour for everyone to enjoy for years to come.

2024 S2C RULES

- 1) Entry denotes acceptance of these rules by all participants for the duration of the event.
- 2) All participants will wear a life preserver/buoyancy aid.
- 3) Any craft used during the event must be registered for navigational use i.e. 'licensed' to paddle the river. This must cover the duration of the event and is achieved by one of the options below:
 - a) Paddle UK 'on the water' membership (held by at least one participant in the craft).
 - b) Environment Agency craft registration (per craft).
 - c) S2C ticket with 'Paddle Pass'.
 - d) Hire of S2C Official Hire Partner craft.
- 4) Please ensure you can verify your craft is registered for navigational use. Any craft entry determined to be without valid and acceptable proof during the event must purchase an EA craft registration.
 - a) Please note: purchases of EA Craft Registration are refundable (less £3 admin fee) should valid and acceptable proof of alternative registration be presented within 3 days after the event.
- 5) All participants must be competent and confident in handling their craft. A responsible adult must accompany children either by sharing a craft or paddling alongside.
- 6) We advise participants use the official portages and keep clear of weirs and sluices. You might find it useful if your craft has a painter (a rope that is attached to the bow of a boat).
- 7) All participants must be prepared, fit and able enough to use the portages. Physical assistance from our volunteer marshals or others cannot be expected.
- 8) Most portages are over private property - do not trespass. Only portage at the official portage points (as outlined in 'S2C Route' document, EA Navigation map and route signage).
- 9) You are advised to keep in sight of other craft as far as is possible. Our designated sweepers are the last to depart and will adhere to the checkpoint departure times.
- 10) Participants must check in at each and every checkpoint. This is essential, as failure to do so could result in a search being made. If you cannot leave a checkpoint by the designated time, you are deemed to have withdrawn from the event.

	LOCATION	DEPART TIME
Checkpoints DAY 1	Sudbury	No later than 10.30am
	Bures	No later than 2.30pm
Checkpoints DAY 2	Wissington	No later than 10am
	Stratford St Mary	No later than 3pm

2024 S2C RULES

- 11) If you are choosing to withdraw from the event:
 - a) At a checkpoint: please ensure the checkpoint marshal is notified before you leave.
 - b) An unmarshalled location: contact our emergency number/s as soon as possible.
- 12) Unfortunately, there are no refunds if you withdraw before or during the event.
- 13) Please follow advice and guidance to help ensure a safe and enjoyable event for everyone. Anti-social and/or drunken behaviour will not be tolerated and can lead to expulsion from the event.
- 14) Watch out for submerged obstructions or other hazards. Report any urgent problems or incidents to our emergency number/s. If possible, pinpoint location using [What3Words app](#).
- 15) **Weill's Disease (Leptospirosis)** - www.nhs.uk/conditions/leptospirosis/. Everyone should be aware of this potentially fatal infection. Transmission is usually through an open wound or abrasion but can also be caused by ingestion of contaminated water. Symptoms are often akin to flu symptoms and, if untreated, can be fatal. If you feel ill after paddling, you should tell your doctor as soon as possible and let them know where and when you have been on the water.
- 16) Please take every opportunity to wash your hands properly with soap and water. Although the usual toilet and hand washing facilities will be available at the checkpoints; we suggest that all participants also bring along their own hand sanitiser gel.
- 17) There will be staggered time slots for launching on Saturday morning to help reduce overcrowding and expedite the registration process. Please aim to arrive 10 minutes before your launch timeslot so we can efficiently manage this process. Delays are possible if you arrive outside your timeslot.
- 18) Remember that boating is an 'assumed risk' sport - you paddle at your own risk. The River Stour Trust will make every effort to assist you to enjoy this event - however no liability can be accepted for any loss, injury, or damage, however caused.
- 19) Please do what you can to support the Check-Clean-Dry scheme and prevent non-native species entering our waterways: www.nonnativespecies.org/checkcleandry/
- 20) The River Stour Trust reserves the right to cancel or postpone the event if circumstances beyond our reasonable control will negatively impact on safety or viability of the event.
